## Moving Out of Poverty in Honduras

Submitted by jcupp on May 29, 2014

This farmer is one of 20 farmers in his community in Honduras who have moved out of poverty by adopting better production practices and accessing new markets. Instead of harvesting once or twice a year, farmers are now planting to supply lettuce to supermarkets every two weeks, which gives them a higher and more stable income during the year. *Photo by Hector R. Santos, USAID*
